Hi **HiveMQ enthusiast,**

Welcome to the April edition of our newsletter! This month, we are super excited to share some interesting content that unveils how a full-featured MQTT broker can help Azure developers in the IoT space address some difficult IoT data loading use cases and unlock the true value of Azure.

Top Stories

What is the best way to ingest IoT data to Microsoft Azure?

Take your IoT on Azure to the next level with a full-featured MQTT Broker and learn how to have the flexibility to get the IoT data into Azure services the way you want it. Learn more.

Upcoming Webinar

Bridging OPC UA Data to Azure Cloud with MQTT

Join Kudzai Manditereza and HiveMQ on April 27, 2022, to learn how to use OPC UA's Pub/Sub communication model with an MQTT message broker to send IoT data to the Azure cloud. Register now.

A Customer Success Story

BERLEX

Case Study

R6

Learn how Sweden-based Berlex uses a full-featured HiveMQ MQTT broker on Microsoft Azure infrastructure and services to implement reliable, highly-available, cloud-based traffic control systems. Learn more.

A Quick Poll

Are you an IoT developer using Azure services? Help us understand your IoT data loading technique so we can help you to unlock the full potential of Azure. Let us know how do you ingest IoT/IIoT data to your Azure environment?

1. Azure IoT Hub
2. Azure Event Hubs
3. Using an MQTT Broker
4. Other services
