

HIVEMQ

Reliable Data Movement for Connected Devices

JUNE NEWSLETTER

Hi **HiveMQ enthusiast**,

May 25, 2022, marked HiveMQ's 10th anniversary. In our decade long journey, we have always strived to help the MQTT community in every way possible by providing [various editions of our MQTT Broker](#) and tons of [resources](#). We will continue to share as much knowledge as possible to help you build and scale your IoT applications with reliable and secure data connectivity.

This month, we are back with new resources and updates to help ease your IoT/IIoT journey. Find out more below.

Top Stories

Ian Craggs discusses the fundamental differences between the MQTT protocol and the HTTP protocol from the perspective of IoT in this tech blog. [Read on.](#)

New whitepaper discusses different reference architectures to help Solution Architects design reliable and secure inter-factory connectivity solutions using Azure and MQTT. [Learn more.](#)

Tech Blog of the Month

IBM Watson IoT Platform: Message Gateway and MessageSight Are Nearing End-of-Support

What Next?

Get to know the advantages of migrating to a 100% MQTT-based IoT Messaging platform from IBM Watson IoT Platform – MessageSight and Message Gateway, which are nearing end-of-support. [Read on.](#)

Product Updates
